

## How do I work at home on Edgenuity?

You can get to the Edgenuity login page by typing in this URL into your browser:

<https://auth.edgenuity.com/Login/Login/Student>

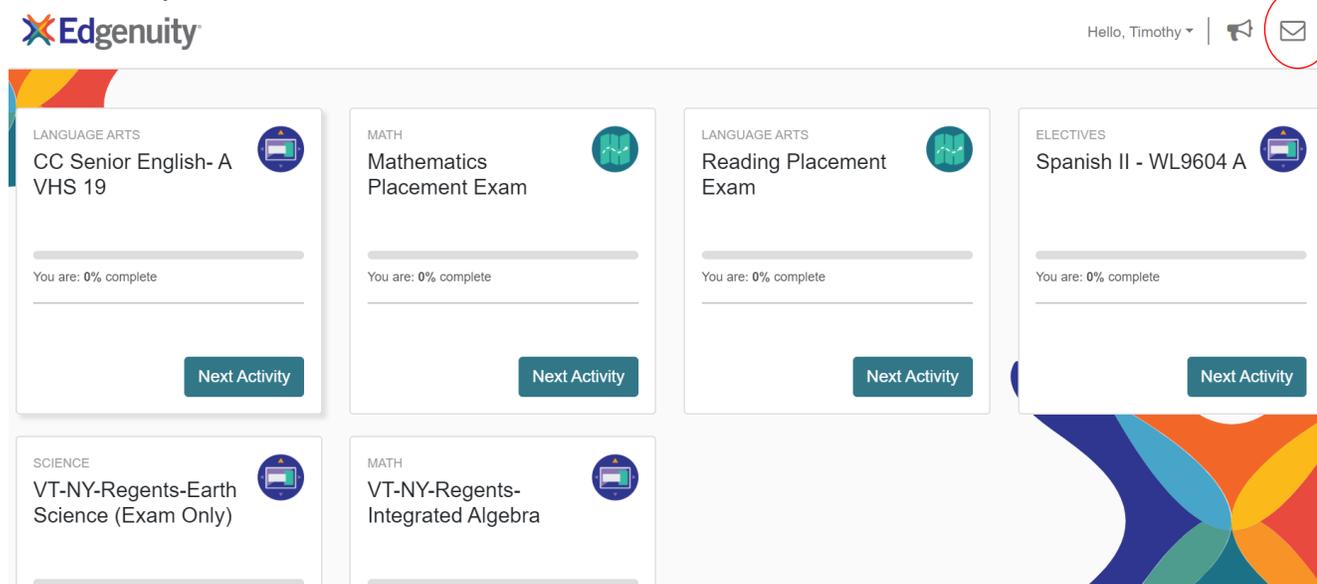

Every student knows his log in.

## How do I ask for a retake or get help while using Edgenuity at home?

When you get stuck on a quiz, follow the instructions below to email your teacher directly from Edgenuity.

First, click the envelop icon. Using this feature, you can compose (create) a new email, reply to an email, forward an email, or recycle (delete) an old email.

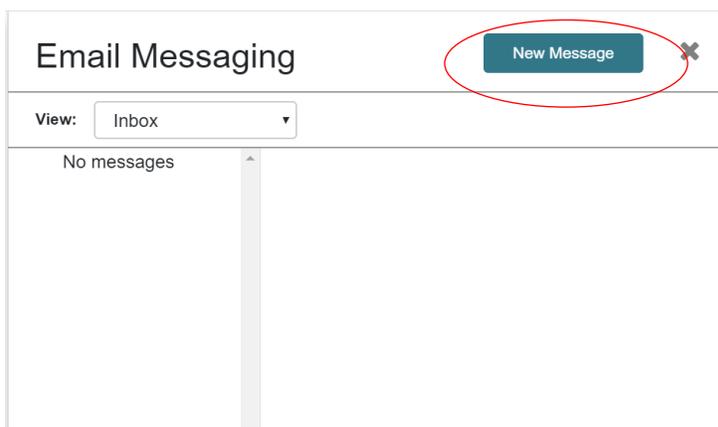

The screenshot shows the Edgenuity dashboard. At the top left is the Edgenuity logo. At the top right, it says "Hello, Timothy" followed by a speaker icon and an envelope icon circled in red. Below this are several course cards, each with a "Next Activity" button. The cards are:

- LANGUAGE ARTS: CC Senior English- A VHS 19
- MATH: Mathematics Placement Exam
- LANGUAGE ARTS: Reading Placement Exam
- ELECTIVES: Spanish II - WL9604 A
- SCIENCE: VT-NY-Regents-Earth Science (Exam Only)
- MATH: VT-NY-Regents-Integrated Algebra

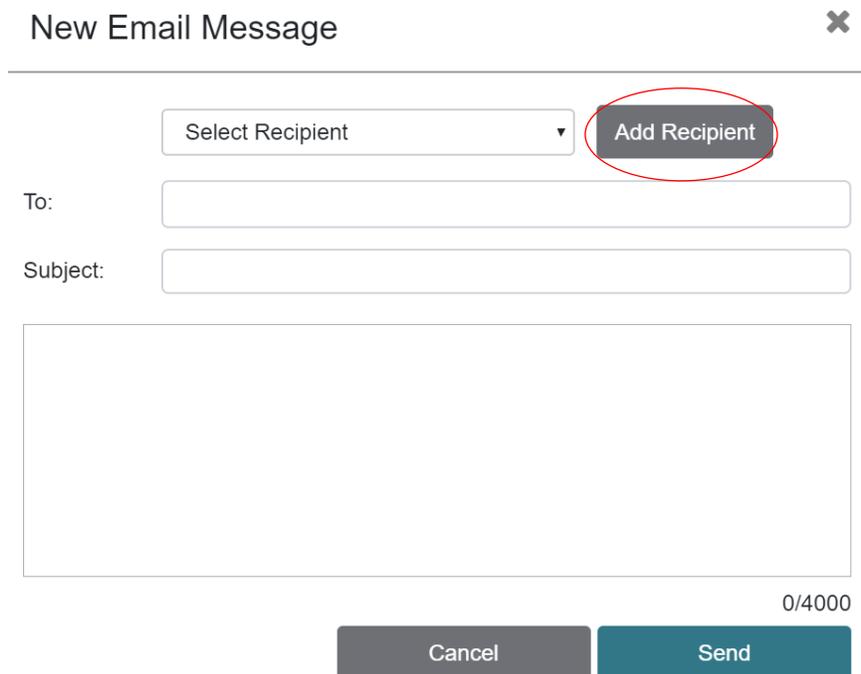

When you need a retake, simply compose a new email and tell your teacher/preceptor that you need your quiz reset. Explain to them what measures you've taken to prepare for the next quiz. They might reset an assignment or an instructional portion that you must do before you can take the quiz, but they will eventually reset your quiz. Make sure you click send so that your email goes through. While waiting for a quiz reset, you can work on your other courses.

To start a new email, click the “New Message” button at the top of the page.

The screenshot shows a web interface titled "Email Messaging". At the top right, there is a teal button labeled "New Message" with a close icon (X) to its right. Below this, there is a "View:" dropdown menu currently set to "Inbox". The main content area below the dropdown is empty and contains the text "No messages".

Select a recipient from the dropdown menu at the top of the page. If you select a few teachers/preceptors, then it will be more likely that one will see your email in a timely fashion. Once you’ve selected a recipient, make sure to hit the “ADD RECIPIENT” button next to the dropdown menu. Type out a brief description of what you need help with in the subject line of the email and then proceed to type out your email in the large blank space below. When you’re done, hit the send button.

The screenshot shows a "New Email Message" form. At the top right, there is a close icon (X). Below the title, there is a dropdown menu labeled "Select Recipient" with a downward arrow. To the right of this dropdown is a teal button labeled "Add Recipient", which is circled in red. Below the dropdown and button, there are two input fields: "To:" and "Subject:". Below these fields is a large, empty text area for the email body. At the bottom right of the text area, there is a character count "0/4000". At the very bottom, there are two buttons: a grey "Cancel" button and a teal "Send" button.
